

FRONT DESK GUIDE

Urban Nail Bar — new receptionist one-pager

Keep this at the desk. Ask Lance, Keith, or Sky when anything looks unfamiliar.

1 • START OF DAY (EVERY MORNING)

- Double-click OPEN-SALON.bat on the salon PC.
- Two windows must stay open: the black server window + your browser.
- Open the Front Desk dashboard in Kimi Work — it refreshes itself.
- Check Today's Schedule + the 8:47 reminder notification.

2 • THE SCREENS (HOME PAGE TILES)

PUBLIC (clients can see these):

- Website — our public site. Booking — clients book here.

STAFF (PIN required — never leave unlocked):

- Scheduler — the main book: calendar, check-in, checkout.
- My Schedule — a tech's own day only. Staff — clock in/out.
- Manager / Admin — management only.
- SMS Blast — text clients the booking link.
- Reminders — tomorrow's clients, one-tap reminder texts.

3 • DAILY ROUTINE

- MORNING — open salon, check dashboard, tap Remind for each client on the Reminders page (texts pre-fill).

- DAY — walk-ins go on the Scheduler; online bookings

appear by themselves within seconds — confirm at check-in.

- CLOSE — finish checkouts on the Scheduler, glance at

Revenue (manager PIN), run the closeout on Manager.

4 • ONLINE BOOKING (CLIENTS, ANYWHERE)

- Run START-PUBLIC.bat → it shows the public booking link.
- Share it by text/Instagram/Google — clients create an

account with phone + PIN, then book. It lands on the

Scheduler automatically. The link works while both

windows stay open on the salon PC.

6 • PHONE APPS (30 SECONDS TO INSTALL)

- Home page → Phone Setup panel → scan your code:
- Staff: My Schedule (your day, own appointments only).
- Clients: Book Now (for the mirror/sign and their phones).
- Log in with your PIN → Add to Home Screen → done.

7 • FRONT DESK DASHBOARD (KIMI WORK)

- Today's Schedule — who's next, live statuses, progress.
- Tomorrow's Appointments — who needs a reminder text.
- Week at a Glance — how busy the next 7 days look.
- Revenue + Payroll — MANAGER/ADMIN PIN required.
- All refresh every 30 min; digest alert at 8:47 AM.

8 • IF SOMETHING LOOKS WRONG

- Page blank or old → hard refresh: Ctrl + F5.
- Data not updating → server window closed? Re-run OPEN-SALON.bat.
- Online link dead → re-run START-PUBLIC.bat for a new link.
- Locked out → log in again; if PIN changed, ask Admin.
- Still stuck → ask Kimi in the Kimi Work app on this PC.
